SUBJECT INDEX, VOLUME 32

Acromegaly, purification of sulfation and thymidine factors from plasma of, 389
ACTH, dissociation of assays of, 595
in hypoglycemia, 189
response to insulin hypoglycemia, 225
Adrenal, angiotensin effect on, 539
circadian periodicity of, 266
hyperplasia of, congenital, deficiency of 21-hydroxylation in, 438
Aldosterone, effects of heptapeptide and hexapeptide fragments of angiotensin II on secretion of, 575
on Na efflux, 555
response to sodium restriction and ACTH in panhypopituitarism, 27
Androgen(s), in adrenocortical virilizing carcinoma, 462
bound and unbound, at delivery, 417
diurnal variations of, 846
in feminizing testis syndrome, 625
free plasma indexes of, 717
influence of illness on metabolism of, 824
metabolism of, in human skin, 737
Angiotensin I, measurement of renin by isotope assay for, 110
Angiotensin II, effect on adrenal and pituitary, 539
effects of heptapeptide and hexapeptide fragments of, on aldosterone secretion, 575
Arginine, GH response to, in obesity, 42

Bartter's syndrome, Na flux in, 562
with surgical treatment, 842

Calcitonin, immunoassay of, with labeled antibody, 285
in medullary Ca and osteopetrosis, 216
Calcium, divided calcium intake effect on metabolism of, 83
in human thyroid, 786
Carcinoma, adrenocortical virilizing, 462
Choriocarcinoma, hormone-producing clonal lines of human, 683
Clomiphene citrate effects in women, 503
Corpus luteum, effect of HCG antiserum on formation of, in the monkey, 579
Corticosteroid, levels of plasma, normal temporal pattern of, 266
Cortisol, anabolic steroid effects on, 232
effects on Na efflux, 555
metabolism of, in biliary obstruction, 36
o,p'-DDD effects on, 192
in parkinsonism and narcolepsy, 796
Cushing's syndrome, due to malignant scrotal tumor, 201
repeated plasma cortisol determinations in, 666
Danazol, pituitary testicular response to, 522
Deoxycorticosterone, plasma, in man, 744

Diabetes, GH and glucose in, 426
^{3}H-dopa in neuroblastoma, 241
^{14}C-dopamine in neuroblastoma, 241

Endocrine, function of, in boys with retarded growth, delayed maturation and zinc deficiency, 361
Estradiol, effect on gonadotropin release, 766
glucoside of, metabolism of, 476
monoglucosiduronates of, 779
Estrogen, validity of studies on metabolism of, 481
Follicle-stimulating hormone, physiological studies with purified, 688
serum, in oligospermia, 410
Fructose, GH release induced by, 582

Gestagens, effects on plasma proteins, 547
Glaucoma, diphenylhydantoin and dexamethasone-induced changes of cortisol in, 669
Glucagon, propanolol effect on GH response to, 470
Glucose, GH and, in diabetes, 426
Glucosiduronate(s), of 17β-estradiol, 779
estriol-16, metabolism of, 819
Goiter, endemic, in Greece, 130
inherited elevation of TBG and, 587
TSH production rate in nontoxic, 852
TSH role in endemic, 491
Gonadotropin, acquired hyperestrogenism response to, 77
chorionic, radioligand-receptor assay system for, 860
human chorionic, effects of, on steroid secretion, 211
measurement by isotope complement fixation, 444
new labeling method for physiologic studies, 290
Graves' disease, thymic hyperplasia in, 140
Growth hormone, effect of weight loss on response to arginine infusion of, 42
and glucose, in diabetes, 426
human, cross-reaction between HCS and, 88
determination of secretion rates of, 356
measurement of, in pregnancy, and correlation with HPL, 328
release in sleep, effect of daytime exercise on, 662
in hypoglycemia, 189
porcine, antibodies induced by human GH, 641
prostaglandin effect on secretion of human, 857
release of, induced by fructose, 582
in infancy, 368
response to glucagon of, propranolol effect on, 470
serum, lack of response to metyrapone, 854
sleep-induced peak secretion of, 729
from tissue culture, 70

SUBJECT INDEX, VOLUME 32

Acromegaly, purification of sulfation and thymidine factors from plasma of, 389
ACTH, dissociation of assays of, 595
in hypoglycemia, 189
response to insulin hypoglycemia, 225
Adrenal, angiotensin effect on, 539
circadian periodicity of, 266
hyperplasia of, congenital, deficiency of 21-hydroxylation in, 438
Aldosterone, effects of heptapeptide and hexapeptide fragments of angiotensin II on secretion of, 575
on Na efflux, 555
response to sodium restriction and ACTH in panhypopituitarism, 27
Androgen(s), in adrenocortical virilizing carcinoma, 462
bound and unbound, at delivery, 417
diurnal variations of, 846
in feminizing testis syndrome, 625
free plasma indexes of, 717
influence of illness on metabolism of, 824
metabolism of, in human skin, 737
Angiotensin I, measurement of renin by isotope assay for, 110
Angiotensin II, effect on adrenal and pituitary, 539
effects of heptapeptide and hexapeptide fragments of, on aldosterone secretion, 575
Arginine, GH response to, in obesity, 42

Bartter's syndrome, Na flux in, 562
with surgical treatment, 842

Calcitonin, immunoassay of, with labeled antibody, 285
in medullary Ca and osteopetrosis, 216
Calcium, divided calcium intake effect on metabolism of, 83
in human thyroid, 786
Carcinoma, adrenocortical virilizing, 462
Choriocarcinoma, hormone-producing clonal lines of human, 683
Clomiphene citrate effects in women, 503
Corpus luteum, effect of HCG antiserum on formation of, in the monkey, 579
Corticosteroid, levels of plasma, normal temporal pattern of, 266
Cortisol, anabolic steroid effects on, 232
effects on Na efflux, 555
metabolism of, in biliary obstruction, 36
o,p'-DDD effects on, 192
in parkinsonism and narcolepsy, 796
Cushing's syndrome, due to malignant scrotal tumor, 201
repeated plasma cortisol determinations in, 666
Danazol, pituitary testicular response to, 522
Deoxycorticosterone, plasma, in man, 744

Diabetes, GH and glucose in, 426
^{3}H-dopa in neuroblastoma, 241
^{14}C-dopamine in neuroblastoma, 241

Endocrine, function of, in boys with retarded growth, delayed maturation and zinc deficiency, 361
Estradiol, effect on gonadotropin release, 766
glucoside of, metabolism of, 476
monoglucosiduronates of, 779
Estrogen, validity of studies on metabolism of, 481
Follicle-stimulating hormone, physiological studies with purified, 688
serum, in oligospermia, 410
Fructose, GH release induced by, 582

Gestagens, effects on plasma proteins, 547
Glaucoma, diphenylhydantoin and dexamethasone-induced changes of cortisol in, 669
Glucagon, propanolol effect on GH response to, 470
Glucose, GH and, in diabetes, 426
Glucosiduronate(s), of 17β-estradiol, 779
estriol-16, metabolism of, 819
Goiter, endemic, in Greece, 130
inherited elevation of TBG and, 587
TSH production rate in nontoxic, 852
TSH role in endemic, 491
Gonadotropin, acquired hyperestrogenism response to, 77
chorionic, radioligand-receptor assay system for, 860
human chorionic, effects of, on steroid secretion, 211
measurement by isotope complement fixation, 444
new labeling method for physiologic studies, 290
Graves' disease, thymic hyperplasia in, 140
Growth hormone, effect of weight loss on response to arginine infusion of, 42
and glucose, in diabetes, 426
human, cross-reaction between HCS and, 88
determination of secretion rates of, 356
measurement of, in pregnancy, and correlation with HPL, 328
release in sleep, effect of daytime exercise on, 662
in hypoglycemia, 189
porcine, antibodies induced by human GH, 641
prostaglandin effect on secretion of human, 857
release of, induced by fructose, 582
in infancy, 368
response to glucagon of, propranolol effect on, 470
serum, lack of response to metyrapone, 854
sleep-induced peak secretion of, 729
from tissue culture, 70

Gynecomastia, familial male pseudohermaphroditism with, 604
histopathology of human, 173
pubertal, caused by hyperleydigism, 751

Hashimoto's disease, iodide myxedema in, 515
Hemodialysis, insulin hypersecretion during chronic, 653
Heparin, effect of, on free and total thyroxine, 633
Hormonogenesis, periodic, 317
Human chorionic gonadotropin, effect of antiserum to, on ovulation and CL formation in the monkey, 579
2-Hydroxyestrone in human plasma, radioimmunoassay of, 3
21-Hydroxylase, deficiency of, in CAH, 438
Hyperestrogenism, acquired, in male without neoplasia, 77
Hyperleydigism, cause of severe pubertal gynecomastia, 751
Hyperplasia, thymic, in Graves' disease, 140
Hypoglycemia, ACTH and cortisol response to insulin-induced, 225
GH and corticosteroids in, 188

Illness, influence on androgen metabolism, 824
Insulin, ACTH and cortisol response to glycemia induced by, 225
GH and corticosteroids in hypoglycemia induced by, 188
hypersecretion of, during chronic hemodialysis, 653
Iodide, enhanced susceptibility to myxedema of patients with Hashimoto's disease taking, 515
Iodine, in human thyroid, 786
intake of, and thyroid function in Buenos Aires, 254
mathematical model of human metabolism of, 757
Irradiation, thyroid function after external, 833

17-Ketosteroid reductase defect, testicular, pseudohermaphroditism with gynecomastia due to, 604
Klinefelter's syndrome, small testes in prepubertal boys with, 671

Lactogen, human placental, cross-reaction with HGH antiserum, 328
three immunoassay methods of measuring, 382
Lithium, effect on thyroid function, 647
Long-acting thyroid stimulator, inhibition of, by thyroid lipoprotein, 772
Luteinizing hormone, administration to man of releasing hormone of, 287
effects of, on steroid secretion, 211
inhibition of peak of, and ovulation in rhesus monkeys, 309
plasma levels of, in Japanese and Ainu, 673
radioligand-receptor assay system for, 860
Lymphocytes, thyroglobulin and thyroid extract as stimulators of, 115
Lymphoma, thyroid function after radiotherapy for malignant, 833

Meconium, steroids and sterols in, 801
Medroxyprogesterone acetate, effect on testosterone, 457
Menopause, estradiol effect on gonadotropin release pre- and post-, 766
Menstrual cycle, normal, 155
Metyrapone, extra-adrenal actions of, 260
lack of response of serum GH to, 854
Müllerian duct, rat, inhibition by human fetal testis, 404

Narcolepsy, cortisol in, 796
Neuroblastoma, ^{3}H-DOPA and ^{14}C-dopamine in, 241

Obesity, weight loss effect on GH response to arginine in, 42
Oliogospermia, serum FSH in, 410
Osteopetrosis, calcitonin in medullary Ca and, 216
Ovulation, effect of HCG antiserum on, in the monkey, 579
inhibition of LH peak and, in rhesus monkeys, 309

Panhypopituitarism, aldosterone in, 27
Parkinsonism, cortisol in, 796
Periodicity, circadian adrenal, 266
Phosphorus, in human thyroid, 786
Piromen, metabolic and thermal responses to, 179
Pituitary, angiotensin effect on, 539
function studies of, with Danazol, 522
Pregnancy, estrogen N-acetylglucosamides in urine of late, 532
plasma chorionic somatomammotropin levels during starvation in, 864
steroid sulfate excretion during, 333
Progesterone, radioimmunoassay of plasma, 619
Prolactin, immunologic evidence for monkey and human, 120
Propranolol, effect on GH response to glucagon, 470
Prostaglandin, effect on HGH secretion, 857
Proteins, anabolic steroid effects on, 232
steroid effects on plasma, 547
Pseudohermaphroditism, children with male, 611
familial male, with gynecomastia, 604

Renin, measurement of, by isotope assay for angiotensin I, 110
serum sodium and body fluid balance effects on secretion of, 117

Skin, androgen metabolism in human, 737
Sleep, HGH release during, effect of daytime exercise on, 662
peak of GH secretion induced by, 729
state of, in human infants, 368
Sodium, aldosterone and cortisol effects on efflux of, 555
flux of, in Bartter's syndrome, 562
Somatomammotropin, ectopic production of, by nontrophoblastic cancers, 94
human chorionic, cross-reaction between HGH and, 88

XUM

levels of plasma chorionic, during starvation in midpregnancy, 864
Starvation, plasma chorionic somatomammotropin during, in midpregnancy, 864
Steroid(s), anabolic, effects on proteins, 232
HCG effect on testicular secretion of, 59
kinetics of dissociation of, from protein, 147
LH and HCG effects on secretion of, 211
in meconium, 801
sulfate, excretion during pregnancy, 333
Sterols, in meconium, 801
Sulfation factor, purification of, 389

Target tissues, testosterone metabolism in, 449
Testicular feminization syndrome, pathophysiology of, 568
Testis, HCG effect on steroid secretion by, 59
human fetal, rat müllerian duct inhibition by, 404
Testosterone, medroxyprogesterone effect on, 457
plasma binding globulin of, and free plasma androgen indexes, 717
target tissue metabolism of, 449
urinary excretion of, in Japanese and Ainu, 673
Thymidine factor, purification of, 389
Thyrocalcitonin, in urine of patients with medullary carcinoma, 102
Thyroid, azodicarbonamide effect on function of, 659
calcitonin in patient with medullary carcinoma of, 216
calcium, iodine and phosphorus in human, 786
computer diagnosis of function of, 167
and diagnostic ultrasound, 709
family group with auto-immune disease of, 680
function of, after external irradiation, 833
and iodine intake in Buenos Aires, 254
isolation and characterization of albumin of, 7
LATS inhibition by lipoprotein of, 772
lithium effect on function of, 647
synthesis of albumin of, by normal human thyroid tissue, 18
Thyroid-stimulating hormone, production rate in nontoxic goiter, 852
role in endemic goiter, 491
Thyrotoxicosis, GH and cortisol responses to insulin-induced hypoglycemia in, 571
Thyrotropin, human chorionic, placental content and characterization of, 52
Thyroxine, antisera binding, 299
heparin effect on free and total, 633
methyl ester of, and T_3 determination, 350
radioimmunoassay of human globulin binding, 372
specific measurement of serum, 497
T_3 kinetics in subjects without, 509
thermal stability of carriers of, 222
Thyroxine-binding globulin, goiter and inherited elevation of, 587
Triiodothyronine, antisera binding, 299
determination of, and T_4 methyl ester, 350
kinetics in subjects without T_4, 509
methodological artifacts in measurement of concentration of, 675
withdrawal test of, 127
Tumor, Cushing's syndrome caused by malignant scrotal, 201
hormone-producing, periodicity of function of, 317
Turner, Henry H. (1892–1970), 1

Ultrasound, diagnostic, thyroid and, 709
Urine, estrogen N-acetylglucosamides in human late pregnancy, 532
thyrocalcitonin in, from patients with medullary carcinoma, 102

Zinc, deficiency of, endocrine function and, 361

BY J. B. LIPPINCOTT COMPANY, PUBLISHERS

CONTENTS OF VOLUME 32

No. 1, January 1971

Instructions to Authors iii
Henry H. Turner (1892–1970) 1
Radioimmunoassay of 2-Hydroxyestrone in Human Plasma 3
I. Yoshizawa and J. Fishman
Thyroid Albumin. I. Isolation and Characterization 7
M. H. Jonckheer and D. M. Karcher
Thyroid Albumin. II. *In Vitro* Synthesis of a Thyroid Albumin by Normal Human Thyroid Tissue 18
J. Otten, M. Jonckheer, and J. E. Dumont
Aldosterone Response to Sodium Restriction and ACTH Stimulation in Panhypopituitarism 27
G. H. Williams, L. I. Rose, R. G. Dluhy, J. F. Dingman, and D. P. Lauler
Cortisol Metabolism in Total Extrahepatic Biliary Obstruction 36
B. Zumoff, H. L. Bradlow, T. F. Gallagher, and L. Hellman
Effect of Weight Loss on the Growth Hormone Response to Arginine Infusion in Obesity 42
A. Z. El-Kkodary, M. F. Ball, B. Stein, and J. J. Canary
Placental Content and Characterization of Human Chorionic Thyrotropin 52
J. M. Hershman and W. R. Starnes
Secretion of Free and Sulfate-Conjugated Neutral Steroids by the Human Testis. Effect of Administration of Human Chorionic Gonadotropin 59
T. Laatikainen, E. A. Laitinen, and R. Vihko
Human Growth Hormone Release in Sleep: Nonsuppression by Acute Hyperglycemia 65
D. C. Parker and L. G. Rossman
Human Growth Hormone Produced in Tissue Culture: Characterization by Polyacrylamide Gel Electrophoresis 70
P. O. Kohler, W. E. Bridson, and A. Chrambach
Acquired Gonadotropin-Responsive Hyperestrogenism in a Male Without Evidence of Neoplasia 77
S. R. Smith
Effect of Divided Calcium Intake on Calcium Metabolism 83
A. N. Kales and J. M. Phang
Studies on the Cross-reaction Between Human Hormone and Human Chorionic Somatomammotropin in Radioimmunoassay Systems 88
D. B. Grant, S. L. Kaplan, and M. M. Grumbach
Ectopic Production of Human Chorionic Somatomammotropin by Nontrophoblastic Cancers 94
B. D. Weintraub and S. W. Rosen
Measurement of Thyrocalcitonin-like Activity in Urine of Patients with Medullary Carcinoma 102
E. F. Voelkel and A. H. Tashjian, Jr.
Double Isotope Derivative Assay for Angiotensin I: Use for Renin Measurement 110
R. I. Gregerman and M. A. Kowatch

COMMENTS

Human Thyroglobulin and Thyroid Extract as Specific Stimulators of Sensitized Lymphocytes 115
E. N. Ehrenfeld, E. Klein, and D. Benezra
Relative Effects of Serum Sodium Concentration and the State of Body Fluid Balance on Renin Secretion 117
R. D. Gordon and C. G. K. Pawsey

RAPID COMMUNICATION

Immunologic Evidence for Monkey and Human Prolactin (MPr and HPr) 120
H. Guyda, P. Hwang, and H. Friesen

No. 2, February 1971

Triiodothyronine Withdrawal Test—A Test of Thyroid-Pituitary Adequacy 127
R. B. Stein and J. T. Nicoloff
Endemic Goiter in Greece: Some New Epidemiologic Studies 130
B. Malamos, D. A. Koutras, G. A. Rigopoulos, P. D. Papapetrou, E. Gougas, H. Kelperi, C. Moraitopoulos, E. Davi, and J. Leonardopoulos
Thymic Hyperplasia in Graves' Disease 140
A. J. Van Herle and I. J. Chopra
Kinetics of Dissociation of 17β-Hydroxysteroids from the Steroid Binding β-Globulin of Human Plasma 147
W. Heyns and P. De Moor
Concentration of Unconjugated Estrogens, Androgens and Gestagens in Ovarian and Peripheral Venous Plasma of Women: The Normal Menstrual Cycle 155
C. W. Lloyd, J. Lobotsky, D. T. Baird, J. A. McCracken, J. Weisz, M. Pupkin, J. Zanartu, and J. Puga
Computer Diagnosis from Tests of Thyroid Function 167
T. H. Oddie
A Study of the Histopathology of Human Gynecomastia 173
G. L. Nicolis, R. S. Modlinger, and J. L. Gabrilove
Metabolic and Thermal Responses to Piromen in Man 179

M. B. Davidson, M. Mager, P. Killian, and A. Braun

Further Studies on the Relation Between Growth Hormone and Corticotrophin Secretion in Insulin-Induced Hypoglycemia 188
K. Nakagawa, Y. Horiuchi, and K. Mashimo

Effects of o,p'-DDD on Cortisol and 6β-Hydroxycortisol Secretion and Metabolism in Man 192
D. K. Fukushima, H. L. Bradlow, and L. Hellman

Cushing's Syndrome Caused by Malignant Tumor in the Scrotum: Clinical, Pathologic and Biochemical Studies 201
Y. Morimoto, K. Hiwada, M. Nanahoshi, S. Yano, A. Kumagai, Y. Yamamura, K. Kotoh, H. Uda, G. Yamane, and K. Okano

Effects of HCG and Human Pituitary LH on Steroid Secretion and Functional Life of the Human Corpus Luteum 211
F. W. Hanson, J. E. Powell, and V. C. Stevens

Plasma Calcitonin Activity in a Patient with Thyroid Medullary Carcionoma and Her Children with Osteopetrosis 216
M. Verdy, R. Beaulieu, L. Demers, W. C. Sturtridge, P. Thomas, and M. A. Kumar

Thermal Stability of Serum Thyroxine-Binding Proteins 222
Y. Takemura, G. Hocman, and K. Sterling

Plasma Immunoreactive Corticotrophin and Cortisol Response to Insulin Hypoglycemia in Normal Subjects and Patients with Pituitary Disease 225
R. A. Donald

Effects of Anabolic Steroids on Hormone-Binding Proteins, Serum Cortisol and Serum Non-protein-Bound Cortisol 232
J. Barbosa, U. S. Seal, and R. P. Doe

Metabolism of L-3,4-Dihydroxyphenylalanine-2,5,6-^{3}H and 3,4-Dihydroxyphenylethylamine-2-^{14}C in a Patient with Neuroblastoma 241
S. Imashuku and E. U. LaBrosse

Adaptation of Thyroid Function to Iodine Intake in Buenos Aires 254
H. M. Forcher, A. E. Lanaro, C. L. Enriori, and J. Reforzo-Membrives

Extra-adrenal Actions of Metyrapone in Man. Effects on Plasma Cortisol Disappearance, Growth Hormone Secretion and Glucose Metabolism 260
O. D. Bruno, R. Leclercq, E. Virasoro, and G. Copinschi

Characterization of the Normal Temporal Pattern of Plasma Corticosteroid Levels 266
D. T. Krieger, W. Allen, F. Rizzo, and H. P. Krieger

COMMENTS

A Sensitive New Immunoassay for Calcitonin Employing Labeled Antibody 285
E. W. D. Colt, L. E. M. Miles, K. L. Becker, and N. J. Shah

Administration of LH-Releasing Hormone of Human Origin to Man 287
A. J. Kastin, A. V. Schally, C. Gual, A. R. Midgley, Jr., A. Arimura, M. C. Miller III, and A. Cabeza

RAPID COMMUNICATION

A New Method of Labeling Human Chorionic Gonadotropin for Physiologic Studies 290
J. Vaitukaitis, J. Hammond, G. Ross, J. Hickman, and G. Ashwell

No. 3, March 1971

Production of Antibodies Specifically Binding Triiodothyronine and Thyroxine 299
I. J. Chopra, J. C. Nelson, D. H. Solomon, and G. N. Beall

Blockade of the Surge of Preovulatory Serum Luteinizing Hormone and Ovulation with Exogenous Progesterone in Cycling Rhesus (*Macaca mulatta*) Monkeys 309
H. G. Spies and G. D. Niswender

Periodic Hormonogensis—A New Phenomenon. Periodicity in Function of a Hormone-Producing Tumor in Man 317
R. E. Bailey

Measurement of Human Growth Hormone in Pregnancy and Correlation with Human Placental Lactogen 328
S. K. Varma, P. H. Sonksen, K. Varma, J. S. Soeldner, H. A. Selenkow, and K. Emerson, Jr.

Urinary Excretion of Corticosteroid C-21 Sulfates During Human Pregnancy 333
G. P. Klein, J. P. Kertesz, S. K. Chan, and C. J. P. Giroud

Effects of Infused Testosterone on Mental Performances and Serum LH 341
E. L. Klaiber, D. M. Broverman, W. Vogel, G. E. Abraham, and F. L. Cone

No Interference from Thyroxine Methyl Ester with T_3 Determination by Nauman, Nauman and Werner Method 350
I. Radichevich and S. C. Werner

Determination of Integrated Plasma Concentrations and True Secretion Rates of Human Growth Hormone 356
A. Kowarski, R. G. Thompson, C. J. Migeon, and R. M. Blizzard

Studies of Endocrine Function in Boys with Retarded Growth, Delayed Sexual Maturation and Zinc Deficiency 361
Y. D. Coble, Jr., C. W. Bardin, G. T. Ross, and W. T. Darby

Behavioral State, Sleep Stage and Growh Hormone Levels in Human Infants 368
J. W. Finkelstein, T. F. Anders, E. J. Sachar, H. P. Roffwarg, and L. D. Hellman

Radioimmunoassay of Human Thyroxine-Binding Globulin (TBG) 372
R. P. Levy, J. S. Marshall, and N. L. Velayo

Comparison of a Rapid New Method of Hemagglutination Inhibition Assay of HPL with Micro-complement Fixation and Radioimmunoassay 382

H. Theppisai, D. R. Mishell, Jr., and R. M. Nakamura

Further Purification and Characterization of Sulfation Factor and Thymidine Factor from Acromegalic Plasma 389
J. J. Van Wyk, K. Hall, J. L. Van den Brande, and R. P. Weaver

Interspecific Character of the Müllerian-Inhibiting Substance: Action of the Human Fetal Testis, Ovary and Adrenal on the Fetal Rat Müllerian Duct in Organ Culture 404
N. Josso

Monotropic Increase of Serum FSH Correlated with Low Sperm Count in Young Men with Idiopathic Oligospermia and Aspermia 410
S. W. Rosen and B. D. Weintraub

Percentage Binding of Testosterone, Androstenedione and Dehydroisoandrosterone in Plasma at the Time of Delivery 417
M. G. Forest, I. G. Ances, A. J. Tapper, and C. J. Migeon

Growth Hormone and Glucose Interrelationships in Diabetes: Studies of Inadvertent Hypoglycemic Episodes During Continuous Blood Glucose Analysis 426
G. D. Molnar, V. Fatourechi, E. Ackerman, W. F. Taylor, J. W. Rosevear, L. C. Gatewood, F. J. Service, and K. E. Moxness

Studies on the Deficiency of 21-Hydroxylation in Patients with Congenital Adrenal Hyperplasia 438
A. P. Simopoulos, J. R. Marshall, C. S. Delea, and F. C. Bartter

COMMENTS

Measurement of Human Chorionic Gonadotropin by Means of Isotope Complement Fixation 444
S. Brody

No. 4, April 1971

Testosterone Metabolism in Target Tissues: 2. Human Fetal and Adult Reproductive Tissues, Perineal Skin and Skeletal Muscle 449
R. P. Kelch, U. B. Lindholm, and R. B. Jaffe

Human Hepatic Testosterone A-Ring Reductase Activity: Effect of Medroxyprogesterone Acetate 457
G. G. Gordon, K. Altman, A. L. Southren, and J. Olivo

Studies of Androgens and Their Precursors in Adrenocortical Virilizing Carcinoma 462
J. M. Saez, B. Loras, A. M. Morera, and J. Bertrand

Effect of Propranolol on the Response of Serum Growth Hormone to Glucagon 470
M. L. Mitchell, P. Suwunrungsi, and C. T. Sawin

Metabolism of Intravenously Administered 17β-Estradiol-6,7-^{3}H-3-glucoside-^{14}C in Normal Women 476
R. Hobkirk, M. Nilsen, D. G. Williamson, and D. S. Layne

Validity of Metabolic Clearance and Interconversion Rates of Estrone and 17β-Estradiol in Normal Adults 481
C. Longcope and J. F. Tait

Endemic Goiter in the Cauca Valley. III. Role of Serum TSH in Goitrogenesis 491
H. W. Wahner, W. E. Mayberry, E. Gaitan, and J. E. Gaitan

Evaluation of a Simplified Technique for the Specific Measurement of Serum Thyroxine Concentration 497
L. E. Braverman, A. G. Vagenakis, A. E. Foster, and S. H. Ingbar

New Evidence for an Anti-estrogenic Action of Clomiphene Citrate in Women 503
J. L. Vaitukaitis, J. A. Bermudez, C. M. Cargille, M. B. Lipsett, and G. T. Ross

Changes in Triiodothyronine Kinetics Produced by Variations of Serum Thyroxine-Binding Globulin Capacity in Subjects Without Thyroxine 509
A. A. Zaninovich, O. Degrossi, and V. Pecorini

Enhanced Susceptibility to Iodide Myxedema in Patients with Hashimoto's Disease 515
L. E. Braverman, S. H. Ingbar, A. G. Vagenakis, L. Adams, and F. Maloof

Pituitary and Testicular Function Studies. I. Experience with a New Gonadal Inhibitor, 17α-Pregn-4-en-20-yno-(2,3-d)isoxazol-17-ol (Danazol) 522
R. J. Sherins, H. M. Gandy, T. W. Thorslund, and C. A. Paulsen

Levels of N-acetylglucosaminides and Sulfo-N-acetylglucosaminides of 15α-Hydroxyestrone and 15α-Hydroxyestradiol in Human Late Pregnancy Urine 532
M. J. Frey, H. Jirku, and M. Levitz

Effect of Angiotensin II on Adrenal and Pituitary Function in Man 539
S. S. Rayyis and R. Horton

Effects of Steroids on Plasma Proteins—Progestational Agents 547
J. Barbosa, U. S. Seal, and R. P. Doe

Effects of Aldosterone and Cortisol on Human Erythrocyte Na Efflux 555
G. Gall, P. Usher, J. C. Melby, and R. Klein

Erythrocyte Na Flux in a Patient with Bartter's Syndrome 562
G. Gall, J. Vaitukaitis, J. E. Haddow, and R. Klein

COMMENTS

Further Studies on the Pathophysiology of Testicular Feminization Syndrome 568
P. Mauvais-Jarvis, O. Crepy, and J. P. Bercovici

Growth Hormone and Cortisol Responses to Insulin-Induced Hypoglycemia in Thyrotoxicosis 571
G. Giustina, E. Reschini, F. Valentini, and L. Cantalamessa

RAPID COMMUNICATIONS

The Effect of the Heptapeptide (2–8) and 575

Hexapeptide (3–8) Fragments of Angiotensin II on Aldosterone Secretion

Plasma Chorionic Somatomammotropin Levels During Starvation in Midpregnancy 864
Y. J. Kim and P. Felig

SUBJECT INDEX, VOLUME 33

N-Acetyllactosamine synethetase, prolactin bioassay by induction of, in mouse mammary gland explants, 217
Acromegaly, hypersecretion of arginine vasopressin in, 418
  variable response of plasma GH in treatment with medroxyprogesterone acetate, 424
ACTH, administration, plasma 17-ketosteroids and testosterone in prepubertal children before and after, 249
  human, and GH, response to surgical stress, 481
  reserve, assessment of GH and, in children pretreated with DES, 949
Adrenal gland(s), hyperplastic, adenomatous, subtotal adrenalectomy of, remission of recurrent hyperaldosteronisin after, 474
Adrenal reserve, inadequate, 844
Adrenal sex steroids in the monkey, 940
Adrenalectomy, subtotal, remission of recurrent hyperaldosteronism resulting from, 474
  unilateral, effect with postoperative pituitary irradiation on pituitary dependent Cushing's syndrome, 912
Aldosteronism, primary: preoperative tumor visualization by scintillation scanning, 713
Amenorrhea, plasma monoamine oxidase activity in, 630
Amino acid, nonmetabolizable, stimulation of insulin release in the dog by a, comparison with leucine and arginine, 35
Amniotic fluid, steroid glucuronides and sulfates in, a comparison of the pattern of, 793
Androgen overproduction in hirsute women, combined ovarian and adrenal vein catheterization to determine the site(s) of, 199
Androstenedione, aromatization of, by the diencephalon, 368
Anemia, hemolytic, atypical spherocytic, and hypothyroidism, with high-sodium, low-potassium red cells, 548
Angiotensin, effect of infusions on plasma catecholamines in pregnant women, 929
Angiotensin I, iodination of, for use in radioimmunoassay, 545
Angiotensin II, renin, and oral contraceptives, 671
Antibodies, detection of a lactogenic antigen in serum by, to chemically modified human chorionic somatomammotropin, 77
  fractionation of, to human chorionic somatomammotropin: application to radioimmunoassay, 432
  specific, high-affinity, isolation of, from nonspecific antisera, 399
  in thyroid disorders, 688
Antigen in serum, lactogenic, detection of a, by antibodies to chemically modified human chorionic somatomammotropin, 77
Antisera, nonspecific, isolated from specific, high-affinity antibodies, 399
  specific, a method for producing, with small doses of immunogen, 988
α_1-Antitrypsin, effects of anabolic steroids on, 388
Arginine, compared to nonmetabolizable protein, 35
  effect with glucose on serum insulin and HGH in premature infant, 924
Arginine vasopressin, hypersecretion in acromegaly, 418
  radioimmunoassay of, in human plasma, 254

Calcitonin, porcine, acute effects of pharmacological doses of, plasma kinetics and, in man, 115
  effects of prolonged administration, in postmenopausal osteoporosis, 752
  effects on calcium metabolism in osteoporosis, 719
  salmon synthetic, abnormal urinary sediment during therapy with, 564
Calcium metabolism, in normal human pregnancy, 661
  in osteoporosis, effects of porcine calcitonin on, 719
Carbohydrate metabolism, and age, 619
  in pregnancy: plasma levels of gluconeogenic fuels during fasting in the rat, 869
Carcinoma, adrenocortical, profile and possible origin of an, 312
  breast, metastatic, circulating lipids and lipoproteins in women with, 8
  thyroid, hyperfunctioning, 639
Catecholamines, plasma, effect of angiotensin infusions on, during pregnancy, 929
Catheterization, combined ovarian and adrenal vein, to determine the site(s) of androgen overproduction in hirsute women, 199
Cells, red, high-sodium low potassium, with hypothyroidism and atypical spherocytic hemolytic anemia, 548
Ceruloplasmin, effects of anabolic steroids on, 388
Chlorpromazine stimulation and L-dopa suppression of plasma prolactin in man, 873
Choriocarcinoma cells in culture, cloned, in synthesis of chorionic gonadotropin, 145
Cleft lip and chorioideal coloboma associated with hypothalamo-pituitary dysfunctions, 934
Clomiphene citrate, gonadotropin stimulatory response to, pubertal maturation of the, 551
  short- and long-term effects on the pituitary-testicular axis, 970
Coloboma, chorioideal, and cleft lip associated with hypothalamo-pituitary dysfunctions, 934
Corticosteroid conjugates in liquor amnii, 605
Corticosterone, effect of hydrocortisone and, on some indicators of anxiety, 467
  sulfate of, secretion rate and metabolism in newborn infants, 98
Cortisol, dehydroisoandrosterone secretion with, 87
  diurnal cycles in, in men, 186
  plasma, evaluation during pneumoencephalography, 862
  renal capture and oxidation in man, 52
  secretion, effect of unilateral adrenalectomy and pituitary irradiation on, in pituitary dependent Cushing's syndrome, 912

sulfate of, secretion rate and metabolism in newborn infants, 98
24-hour pattern of episodic secretion in normal subjects, 14
1,2-^{3}H-Cortisol metabolism of, perfused through human liver *in vivo*, 597
Cushing's syndrome, pitiutary dependent, effect of unilateral adrenalectomy and pituitary irradiation, 912
Cyclase, adenyl, in pseudohypopara-thyroidism, parathyroid hormone-sensitive, from the renal cortex of a patient with, 537

Dehydroisoandrosterone, secreted episodically and synchronously with cortisol by normal man, 87
Diabetes mellitus, evidence for an endogenous biogenic monoamine mechanism in, 877
Diethylstilbestrol, assessment of GH and ACTH reserve in children pretreated with, 949
L-Dopa, effect of, on human hypophyseal trophic hormone release, 709
L-Dopa suppression and chlorpromazine stimulation, of plasma prolactin in man, 873
endocrine function and glucose metabolism in patients with Parkinson's disease and their alteration by, 829
Dwarfism, familial, administration of growth hormone to patients with, with high plasma immunoreactive growth hormone, 332

Epinephrine secretion, human, direct measurement from the human adrenal medulla, 436
Estradiol, ethinyl, effect on delay of LH surge, 917
effect on release of pituitary FSH and LH, 882
^{3}H-Estradiol, peripheral metabolism of, and the excretion of endogenous estrone, and estriol glucosiduronate in women with breast cancer, 138
6,7-^{3}H-17β-Estradiol, extraction of radioactive estrogens and metabolites after administration of, 677
17α-Estradiol-17β-glucoside, formation of, by human liver homogenates, 157
Estriol, plasma, radioimmunoassay of, 775
Estriol glucosiduronate excretion in breast cancer, 138
Estrogen(s)
effect on HGH secretion, 896
gonadol dysgenesis after treatment with, changes in adrenocortical function of patients with, 110
plasma monoamine oxidase activity in treatment with, 630
radioactive, extraction of, 677
Estrone, endogenous, excretion of, in breast cancer, 138

Fibrinogen, effects of anabolic steroids on, 388
Follicle-stimulating hormone, effect on spermatogenesis in hypophysectomized patients, 888
in men with CG-secreting testicular tumors, 957
plasma, diurnal cycles in, testosterone and cortisol in men, 186
release, effect of ethinyl estradiol on, 882
radioimmunoassay of human, with antisera to the ovine hormone, 68
urinary, progressively desialylated human, altered biologic and immunologic activities of, 308

GLI, effect of endogenous intestinal, on insulin secretion and glucose concentration in dogs, 318
Globulin, corticosteroid-binding, purification from human plasma by affinity chromatography, 193
Glucose, biphasic insulin secretory response to, 301
impairment in tolerance, by hyperglycemia, 234
intravenous loads, relationship between insulin responses and glucose disappearance rate, 409
metabolism in Parkinson's disease, alteration by L-dopa, 829
17β-Glucoside, 17 α-estradiol, formation of, 157
β-Glucuroindase, effects of anabolic steroids on, 388
1-Glycine-ACTH(1-18)-octadecapeptide amide in man, adrenocortictropic potency of, 356
Glycol, polyethylene, separation of free and antibody-bound peptide hormones in radioimmunoassay, 732
Goiter, prevalence of, relationship between serum thyrotropin level, and the pattern of iodine metabolism in Idjwi Island, 261
Gonadal dysgenesis, adrenocortical function with, after treatment with estrogen, 110
Gonadotropin(s), chorionic, immunologic and biologic activity of, synthesized by cloned choriocarcinoma cells in culture, 145
reserve, evaluation in hypogonadal patients with suspected hypothalamic-pituitary disease, 970
response of, and testosterone to Clomiphene stimulation in a pubertal boy, 360
Gonadotropin stimulatory response to clomiphene, pubertal maturation of the, 551
Gonadotropin-secreting testicular tumors, FSH in men with chorionic, 957
Graves' disease, radioassay of serum anti-microsomal and anti-thyroglobulin antibodies in, 688
Growth hormone, administration to patients with familial dwarfism with high plasma immunoreactive GH, 332
assessment of, and ACTH reserve in children pretreated with DES, 949
classic bioassay statistical procedures applied to radioimmunoassay of, 225
effects on nitrogen excretion and oxygen consumption of obese patients, 293
human, and insulin, a combined immunoassay of: cumulative assessment of assay performance, 150
effect of arginine and arginine with glucose in premature infant, 924
effect on sodium transport in isolated frog skin, 903
in urine, 799
secretion, sex-based variation of, 896
in human fetal pituitary glands and cord blood, 908
pituitary, *in vitro* release of monkey, by acromegalic plasma, 448
release during 1st year of life in relation to sleep-wake periods, 561
release in blind subjects, absent sleep peak of: correlation with sleep EEG stages, 847
response of human ACTH and, to surgical stress, 481
rise, serum, effect of adrenergic receptor blockade

on the exercise-induced, in normals and juvenile diabetics, 807
secretion, during sleep: impairment in glucose tolerance and nonsuppressibility by hyperglycemia, 234
effect of MPA on the sleep induced peak of, 851

Haptoglobin, effects of anabolic steroids on, 388
Hydrocortisone, effect on some indicators of anxiety, 467
tryptophan metabolism after treatment with, 838
25-Hydroxycholecaliferol, competitive protein-binding radioassay for, 992
11β-Hydroxylase deficiency, 501
17-Hydroxyprogesterone, radioimmunoassay of plasma, 42
17-α-Hydroxyprogesterone in human plasma, 542
3β-Hydroxysteroid dehydrogenase defect, pubertal boy with the, 261
3β-Hydroxysteroid dehydrogenase-isomerase, histologic structure and serum testosterone, human testicular sulfatase, 582
Hyperaldosteronism, remission of recurrent, resulting from subtotal adrenalectomy of adenomatous hyperplastic adrenal glands, 474
Hyperglycemia, impairment of glucose tolerance and nonsuppressibility by, 234
Hyperplasia, congenital adrenal, due to deficiency of 11β-hydroxylation of 17α-hydroxylated steroids, 501
virilizing, steroid studies in parents of patients with, 23
Hyperthyroidism, induced, effects on steroid metabolism in man, 382
primary thyroid carcinoma and metastases producing, 639
T_3 in euthyroid status after treatment of, 729
Hypoglycemia, diurnal rhythm of plasma GH response to, probable sleep dependency of, 854
Hypothalamo-pituitary dysfunctions, chorioideal coloboma and cleft lip associated with, 934
Hypothyroidism, and atypical spherocytic hemolytic anemia with high-sodium, low-potassium red cells, 548
thyroidal ^{131}I turnover in, 857

Immunogen, a method for producing specific antisera with small doses of, 988
Insulin, circulating, a unique form of, in human islet cell carcinoma, 983
combined immunoassay of HGH and, 150
delivery rate in man, measurement of the, 279
dynamics after streptozotocin therapy, 530
release, stimulation of, in the dog by a nonmetabolizable amino acid, comparison with leucine and arginine, 35
responses, relationship between intravenous glucose loads and glucose disappearance rate, 409
secretion, effect of endogenous GLI on, 318
effect of methysergide maleate on, in adult onset diabetics, 877
secretory response, biphasis, to iv xylitol and glucose in normal, diabetic, and obese subjects, 301
serum, and GH response to arginine and to arginine with glucose in premature infant, 924
Insulinomas, malignant, the use of insulin dynamics in evaluating streptozotocin therapy of, 530
Iodination, effect of, on LATS biological activity, 813
Iodine, metabolism in Idjwi Island, relationship between serum thyrotropin level and the prevalence of goiter and the pattern of, 261
release, non-T_4, from the thyroid, 488
secretion in euthyroid subjects, 647
Islet cell carcinoma, a unique form of circulating insulin in human, 983
^{131}I therapy, thyroid carcinoma following, 287
^{131}I turnover, thyroidal in hypothyroidism, 857

Klinefelter's syndrome, dimorphism in sex chromatin pattern of Sertoli cells in adults with, 683
Leydig cell volume in chromatin-positive, 517

LATS, antibody-free antimicrosomial, preparation and binding of, and the effect of iodination on LATS biological activity, 813
LATS protector, evidence to suggest that, stimulates the human thyroid gland, 47
Leucine, compared to nonmetabolizable protein, 35
Leydig cell volume in chromatin-positive Klinefelter's syndrome, 517
Lipids, circulating, and lipoproteins in women with metastatic breast carcinoma, 8
Lipoproteins, and circulating lipids, in women with metastatic breast carcinoma, 8
Liquor amnii, human characterization of 17-deoxy- and 17-hydroxycorticosteroids, 605
Liver homogenates, human formation of 17α-estradiol-17β-glucoside by, 157
Liver *in vivo*, human, and 1,2-^{3}H-cortisol, 597
Luteinizing hormone, effect on spermatogenesis in hypophysectomized patients, 888
elevations, repetitive, in serum of normal men, 558
fluctuation during menstrual cycle, 962
release, effect of ethinyl estradiol on, 882
surge, effect of ethinyl estradiol on the delay of, 917
Luteinizing hormone-releasing hormone, ovulation confirmed by pregnancy after infusion of porcine, 980

Medulla, human adrenal, direct measurement of human epinephrine secretion, 436
Menstrual cycle, fluctuation of LH during, 962
Metabolic changes during pregnancy, 521
Metabolism, carbohydrate, and age, 619
Methimazole: its absorption and excretion in man tissue distribution in rats, 182
Methysergide maleate, effect on insulin secretion in adult onset diabetics, 877
MPA, effect on the sleep-induced peak of GH secretion, 851
measurement of, by radioimmunoassay, 459
variable response of plasma GH in acromegalic patients treated with, 424
MSH, ectopic, and pituitary MSH, differences between, 377

Orosomucoid, effects of anabolic steroids on, 388
Osteodystrophy, renal, with calcified parathyroids, 105

Osteoporosis, calcium metabolism in, effects of porcine calcitonin on, 719
postmenopausal, effects of prolonged administration of porcine calcitonin in, 752
Osteoporotic individuals, osteoids tissue in normal and, 745
Ovine hormone, radioimmunoassay of HFSH with antisera to the, 68
Ovulation, confirmed by pregnancy after infusion of porcine LH-releasing hormone, 980
11-Oxy-17-ketosteroids, urinary, precursors of. II. allo 3α-tetrahydrocortisol, 176

Parathyroids, calcified, in a case of renal osteodystrophy, 105
Parkinson's disease, endocrine function and glucose metabolism in patients with, and their alteration by L-dopa, 829
Phenolic and tyrosyl-ring T_4 metabolism, 612
Pituitary GH release, *in vitro* monkey, 448
Pituitary gland, GH in human fetal, 908
Pituitary tumors, effect of TRF on plasma TSH levels in patients with, 999
Pituitary-testicular axis, effects of clomiphene citrate on, 970
Plasma, acromegalic, *in vitro* release of monkey pituitary GH by, 448
human, 17α-hydroxyprogesterone in, 542
purification of corticosteroid-binding globulin from, by affinity chromatography, 193
material, the pattern of steroid glucuronides and sulfates in, 793
umbilical cord, the pattern of steroid glucuronides and sulfates in, 793
Plasma estriol, radioimmunoassay of, 775
Plasma GH response, in acromegalic patients treated with medroxyprogesterone acetate, 424
probable sleep dependency of diurnal rhythm of, to hypoglycemia, 854
Plasma 17-ketosteroids, in prepubertal children, before and after ACTH administration, 249
Plasma kinetics and acute effects of porcine calcitonin in man, 115
Plasma monoamine oxidase activity in women, 630
Plasminogen, effects of anabolic steroids on, 388
Pneumoencephalography, plasma cortisol during, 862
Polyethylene glycol, use to separate free and antibody-bound peptide hormones in radioimmunoassays, 732
Pregnancy, effect of angiotensin infusions on plasma catecholamines during, 929
metabolic changes during, 521
Pregnenolone sulfate, measurement after solvolysis in human pregnancy plasma, 787
Presidential address, 567
Progestin, and plasma MAO activity, in women, 630
Prolactive, bioassay by induction of N-acetyllactosamine synthetase in mouse mammary gland explants, 217
biosynthesis of HGH and, by normal pituitary glands and pituitary adenomas, 1
classic bioassay statistical procedures applied to radioimmunoassay of, 225
human, electrophoretic evidence for, 153
measurement of activity in human serum, by the induction of specific milk proteins in mammary gland *in vitro*, 210
plasma, in man, chlorpromazine stimulation and L-dopa suppression of, 873
serum, effect of synthetic TRH on levels of, in man, 996
F Prostaglandins, radioimmunoassay of the, 171
Proteins, total serum, effects of anabolic steroids on, 388
thyroid dysfunction in, 822
Protein-binding, competitive, radioassay for 25-hydroxycholecalciferol, 992
Provera, radioimmunoassay of, 459
Pseudohypoparathyroidism, parathyroid hormone-sensitive adenylcyclase from the renal cortex of a patient with, 537

Radioligand assays, mathematical analysis of kinetics of: improved sensitivity obtained by delayed addition of labeled ligand, 343
Renin, angiotensin II and oral contraceptives, 671
distribution and disappearance rate in man and dog, 27

Salmon calcitonin, synthetic, abnormal urinary sediment during therapy with, 564
Sephadex LH-20, column chromatography of steroids on, 358
Sertoli cells in Klinefelter's syndrome, 683
Sodium transport, effect of HGH on, in isolated frog skin, 903
Solvolysis, measurement of pregnenolone sulfate after, in human pregnancy plasma, 787
Somatomammotropin, chorionic, chemically modified human, detection of a lactogenic antigen in serum by antibodies to, 77
human, fraction of antibodies to: application to radioimmunoassay, 432
Spermatogenesis, effect of FSH and LH on, in hypophysectomized patients, 888
Steroids, adrenal sex, in the monkey, 940
anabolic effects on haptoglobin, orosomucoid, plasminogen, fibrinogen, transferrin, ceruloplasmin, α_1-antitrypsin, β-glucuronidase and total serum proteins, 388
effects on nitrogen excretion and oxygen consumption of obese patients, 293
biologically active, effect of, on thyroid function in man, 242
column chromatography on Sephadex LH-20, 358
glucuronides and sulfates, a comparison of the pattern of, in material plasma, umbilical cord plasma and amniotic fluid, 793
metabolism in man, effects of induced hyperthyroidism on, 382
sulfates, gonadal, and sulfatase, 582, 592
sulfokinase, comparative studies on, in the human fetal testis and adrenal, 592
Streptozotocin therapy, insulin dynamics after, 530

T_3, circulating, the effects of pregnancy on, 783
T_3 hyperthyroidism, thyroid overactivity and TBG deficiency simulating, 93
T_3 metabolic clearance rate, in man, 624
T_3, the significance of, in maintenance of euthyroid status after treatment of hyperthyroidism, 729

T_3 turnover in euthyroid subjects, 653
T_4 metabolism, phenolic- and tyrosyl-ring, 612
T_4-binding protein at pH 7.4, 699
T_4-binding proteins, separation of, in human serum at pH 7.4, 699
TBG, effect of pH and temperature on the binding capacity of, 699
immunochemical studies on serum lacking in, 326
TBG deficiency, and thyroid overactivity, simulating T_3 hyperthyroidism, 93
TBPA, effect of pH and temperature on the binding capacity of, 699
Testicular interstitial cell tumor, feminizing, 453
Testicular sulfatase, human, 582
Testicular tumors, CG-secreting, FSH in men with, 957
Testis, human fetal, and adrenal sulfation, 592
Testosterone, before and after ACTH administration, in prepubertal children, 249
concentration, apparent free, an index of androgenicity, 759
diurnal cycles in men, 186
response to clomiphene stimulation in a pubertal boy, 360
3α-Tetrahydrocortisol, allo, precursors of urinary 11-oxy-17-ketosteroids, 176
Thyroid carcinoma, following iodine-131 therapy, report of a case and review of the literature, 287
primary, functioning, and metastases producing hyperthyroidism, 639
Thyroid function in man, effect of biologically active steroids on, 242
Thyroid gland, human, stimulated by LATS protector, evidence to suggest that, 47
Thyronine, thyroidal, and non-thyronine iodine secretion in euthyroid subjects, 647
Thyrotoxicosis, non-T_4 iodine release from the thyroid glands of normal subjects and patients with, 488
Thyrotropin, bovine, growth hormone and prolactin, radioimmunoassay of, classic bioassay statistical procedures applied to, 225
serum, radioimmunoassay of: sensitivity and specificity, 768
Thyrotropin level, serum, prevalence of goiter and the pattern of iodine metabolism in Idjwi Island, relationship between the, 261
Thyrotropin-releasing factor, effect on plasma TSH levels in patients with pituitary tumors, 999
Thyrotropin-releasing hormone, synthetic, effect on serum prolactin levels in man, 996
Thyroxine, radioimmunoassay of, 865
relationship between total and absolute free, and the influence of absolute free thyroxine on thyroxine disposed in humans, 63
Tolbutamide, effect on adenyl cyclase in rabbit and human heart and contractility of isolated rabbit atria, 571
Transferrin, effects of anabolic steroids on, 388
Triiodothyronine, growth hormone and anabolic steroids, effects on nitrogen excretion and oxygen consumption of obese patients, 293
radioimmunoassay, affinity and specificity of the antibody for T_3, 509
in unextracted human serum, 364
Trophoblastic disease, metabolic changes in women with, and with intrauterine fetal death compared with metabolic changes during normal pregnancy, 521
Tryptophan metabolism, studies in male subjects treated with hydrocortisone, 838
TSH reserve, direct evaluation, utilizing synthetic thyrotropin releasing hormone, 573
TSH secretion in man, effect of cold on, 859
Tumor, interstitial cell, of the testicle, case of feminizing, clinical and biochemical evaluation, 452

Umbilical cord blood, GH in, 908

Vasopressin, arginine, hypersecretion in acromegaly, 418
radioimmunoassay, in human plasma, 254
radioimmunoassay, application to unextracted human urine, 739
Vitamin D and 25-OH vitamin D, competitive binding assay for, 554

Xylitol, intravenous, biphasic insulin secretory response to, and glucose in normal, diabetic and obese subjects, 301

ISSUED MONTHLY FOR THE ENDOCRINE SOCIETY

BY J. B. LIPPINCOTT COMPANY, PUBLISHERS

CONTENTS OF VOLUME 33

No. 1, July 1971

Biosynthesis of Human Growth Hormone and Prolactin by Normal Pituitary Glands and Pituitary Adenomas 1
P. Hwang, H. Friesen, J. Hardy, and D. Wilansky

Circulating Lipids and Lipoproteins in Women with Metastatic Breast Carcinoma 8
E. B. Feldman and A. C. Carter

Twenty-four Hour Pattern of the Episodic Secretion of Cortisol in Normal Subjects 14
E. D. Weitzman, D. Fukushima, C. Nogeire, H. Roffwarg, T. F. Gallagher, and L. Hellman

Steroid Studies in Parents of Patients with Congenital Virilizing Adrenal Hyperplasia 23
Q. H. Qazi, J. G. Hill, and M. W. Thompson

Distribution and Disappearance Rate of Renin in Man and Dog 27
A. M. Michelakis and H. Mizukoshi

Stimulation of Insulin Release in the Dog by a Nonmetabolizable Amino Acid. Comparison with Leucine and Arginine 35
S. S. Fajans, R. Quibrera, S. Pek, J. C. Floyd, Jr., H. N. Christensen, and J. W. Conn

Radioimmunoassay of Plasma 17-Hydroxyprogesterone 42
G. E. Abraham, R. S. Swerdloff, D. Tulchinsky, K. Hopper, and W. D. Odell

Evidence To Suggest that LATS Protector Stimulates the Human Thyroid Gland 47
D. D. Adams and T. H. Kennedy

Renal Capture and Oxidation of Cortisol in Man 52
L. Hellman, F. Nakada, B. Zumoff, D. Fukushima, H. L. Bradlow, and T. F. Gallagher

Relationship Between Total Thyroxine and Absolute Free Thyroxine and the Influence of Absolute Free Thyroxine on Thyroxine Disposal in Humans 63
G. Hennemann, R. Docter, and A. Dolman

Radioimmunoassay of Human Follicle-Stimulating Hormone with Antisera to the Ovine Hormone 68
M. L'Hermite and A. R. Midgley, Jr.

Detection of a Lactogenic Antigen in Serum by Antibodies to Chemically Modified Human Chorionic Somatomammotropin 77
J. B. Josimovich, L. Boccella, and M. J. Levitt

Dehydroisoandrosterone Is Secreted Episodically and Synchronously with Cortisol by Normal Man 87
R. S. Rosenfeld, L. Hellman, H. Roffwarg, E. D. Weitzman, D. Fukushima, and T. F. Gallagher

Thyroid Overactivity and TBG Deficiency Simulating "T_3 Hyperthyroidism" 93
H. W. Wahner, R. F. Emslander, and C. A. Gorman

Secretion Rate and Metabolism of the Sulfates of Cortisol and Corticosterone in Newborn Infants 98
C. St.-G. Hall, C. Branchaud, G. P. Klein, B. Loras, S. Rothman, L. Stern, and C. J. P. Giroud

Calcified Parathyroids in a Case of Renal Osteodystrophy 105
J. G. Caldwell, B. L. Webber, and L. V. Avioli

Changes in Adrenocortical Function of Patients with Gonadal Dysgenesis after Treatment with Estrogen 110
L. G. Sobrinho, N. G. Kase, and J. A. Grunt

Plasma Kinetics and Acute Effects of Pharmacologic Doses of Porcine Calcitonin in Man 115
B. L. Riggs, C. D. Arnaud, R. S. Goldsmith, W. F. Taylor, J. T. McCall, and A. D. Sessler

Studies on Phenolic Steroids in Human Subjects. XV. Biliary and Urinary Excretion Patterns of Estrone 128
T. Miyazaki, R. Y. Kirdani, W. R. Slaunwhite, Jr., and A. A. Sandberg

Peripheral Metabolism of ^{3}H-estradiol and the Excretion of Endogenous Estrone and Estriol Glucosiduronate in Women with Breast Cancer 138
L. Hellman, B. Zumoff, J. Fishman, and T. F. Gallagher

Immunologic and Biologic Activity of Chorionic Gonadotropin Synthesized by Cloned Choriocarcinoma Cells in Culture 145
W. E. Bridson, G. T. Ross, and P. O. Kohler

COMMENTS

A Combined Immunoassay of Human Growth Hormone and Insulin: Cumulative Assessment of Assay Performance 150
C. Juan and T. W. AvRuskin

RAPID COMMUNICATIONS

Electrophoretic Evidence for Human Prolactin 153
U. J. Lewis, R. N. P. Singh, Y. N. Sinha, and W. P. VanderLaan

Formation of 17α-Estradiol-17β-glucoside by Human Liver Homogenates 157
D. G. Williamson and D. S. Layne

No. 2, August 1971

Radioimmunoassay of the F Prostaglandins 171
B. V. Caldwell, S. Burstein, W. A. Brock, and L. Speroff

Precursors of Urinary 11-Oxy-17-ketosteroids. II. Allo 3α-tetrahydrocortisol 176

J. V. Goldzieher and L. R. Axelrod
Methimazole: Its Absorption and Excretion in Man and Tissue Distribution in Rats 182
J. A. Pittman, R. J. Beschi, and T. C. Smitherman
Diurnal Cycles in Plasma FSH, Testosterone and Cortisol in Men 186
C. Faiman and J. S. D. Winter
Purification of Corticosteroid-Binding Globulin from Human Plasma by Affinity Chromatography 193
W. Rosner and H. L. Bradlow
Combined Ovarian and Adrenal Vein Catheterization to Determine the Site(s) of Androgen Overproduction in Hirsute Women 199
M. A. Kirschner and J. B. Jacobs
Measurement of Prolactin Activity in Human Serum by the Induction of Specific Milk Proteins in Mammary Gland *in Vitro* 210
R. W. Turkington
Prolactin Bioassay by Induction of N-Acetyllactosamine Synthetase in Mouse Mammary Gland Explants 217
J. E. Loewenstein, I. K. Mariz, G. T. Peake, and W. H. Daughaday
Classic Bioassay Statistical Procedures Applied to Radioimmunoassay of Bovine Thyrotropin, Growth Hormone and Prolactin 225
S. R. Vivian and F. S. Labella
Growth Hormone Secretion During Sleep: Impairment in Glucose Tolerance and Nonsuppressibility by Hyperglycemia 234
J. J. Schnure, P. Raskin, and R. L. Lipman
Effect of Biologically Active Steroids on Thyroid Function in Man 242
H. A. Gross, M. D. Appleman, Jr., and J. T. Nicoloff
Plasma 17-Ketosteroids and Testosterone in Prepubertal Children Before and After ACTH Administration 249
R. L. Rosenfield, B. J. Grossman, and N. Ozoa
Radioimmunoassay of Arginine Vasopressin in Human Plasma 254
C. G. Beardwell
Relationship Between the Serum Thyrotropin Level, the Prevalence of Goiter and the Pattern of Iodine Metabolism in Idjwi Island 261
F. Delange, J. M. Hershman, and A. M. Ermans
Pubertal Boy with the 3β-Hydroxysteroid Dehydrogenase Defect 269
G. A. Parks, J. A. Bermudez, C. S. Anast, A. M. Bongiovanni, and M. I. New
Measurement of the Insulin Delivery Rate in Man 279
R C. Turner, J. A. Grayburn, G. B. Newman, and J. D. N. Nabarro
Thyroid Carcinoma Following Iodine-131 Therapy. Report of a Case and Review of the Literature 287
I. R. McDougall, J. S. Kennedy, and J. A. Thomson
Effects of Triiodothyronine, Growth Hormone and Anabolic Steroids on Nitrogen Excretion and Oxygen Consumption of Obese Patients 293
G. A. Bray, M. S. Raben, J. Londono, and T. F. Gallagher, Jr.
Biphasic Insulin Secretory Response to Intravenous Xylitol and Glucose in Normal, Diabetic and Obese Subjects 301
R. C. Turner, B. Schneeloch, and J. D. N. Nabarro
Altered Biologic and Immunologic Activities of Progressively Desialylated Human Urinary FSH 308
J. L. Vaitukaitis and G. T. Ross
Profile and Possible Origin of an Adrenocortical Carcinoma 312
R. G. Dluhy, J. J. Barlow, E. M. Mahoney, R. L. Shirley, and G. H. Williams
Effect of Endogenous Intestinal Glucagon-like Immunoreactivity (GLI) on Insulin Secretion and Glucose Concentration in Dogs 318

Presidential Adress 567
A. Albert

Direct Evaluation of Pituitary Thyrotropin Reserve Utilizing Synthetic Thyrotropin Releasing Hormone 573
E. D. Haigler, Jr., J. A. Pittman, Jr., J. M. Hershman, and C. M. Baugh

Gonadal Steroid Sulfates and Sulfatase. III Correlation of Human Testicular Sulfatase, 3β-Hydroxysteroid Dehydrogenase-Isomerase, Histologic Structure and Serum Testosterone 582
A. H. Payne, R. B. Jaffe, and M. R. Abell

Gonadal Steroid Sulfates and Sulfatase. IV. Comparative Studies on Steroid Sulfokinase in the Human Fetal Testis and Adrenal 592
R. B. Jaffe, and A. H. Payne

Metabolism of 1,2-^{3}H-Cortisol Perfused Through Human Liver In Vivo 597
W. Wortmann, J. C. Touchstone, P. Knapstein, G. Dick, and G. Mappes

Characterization of 17-Deoxy- and 17-Hydroxycorticosteroids in Human Liquor Amnii 605
M. Schweitzer, G. P. Klein, and C. J. P. Giroud

Metabolism of Phenolic- and Tyrosyl-Ring Labeled L-Thyroxine in Human Beings and Rats 612
M. I. Surks and J. H. Oppenheimer

Effect of Age on Carbohydrate Metabolism 619
J. B. O'Sullivan, C. M. Mahan, A. E. Freedlender, and R. F. Williams

Metabolic Clearance Rate of L-Triiodothyronine in Man: A Comparison of Results by Single-Injection and Constant Infusion Methods 624
R. R. Cavalieri, M. Steinberg, and G. L. Searle

Plasma Monoamine Oxidase Activity in Regularly Menstruating Women and in Amenorrheic Women Receiving Cyclic Treatment with Estrogens and a Progestin 630
E. L. Klaiber, Y. Kobayashi, D. M. Broverman, and F. Hall

Functioning Primary Thyroid Carcinoma and Metastases Producing Hyperthyroidism 639
M. K. Ghose, S. M. Genuth, R. M. Abellera, S. Friedman, and I. Lidsky

Thyroidal Thyronine and Non-Thyronine Iodine Secretion in Euthyroid Subjects 647
D. A. Fisher, T. H. Oddie, and C. S. Thompson

Triiodothyronine Turnover in Euthyroid Subjects 653
T. H. Oddie, D. A. Fisher, J. H. Dussault, and C. S. Thompson

Calcium Metabolism in Normal Human Pregnancy 661
R. P. Heaney and T. G. Skillman

Effects of Oral Contraceptive Therapy on the Renin-Angiotensin System 671
M. D. Cam, W. A. Walters, and K. J. Catt

Extraction of Radioactive Estrogens and Metabolites from Small Amounts of Human or Animal Tissues Excised Following Intravenous Administration of 6,7-^{3}H-17β-Estradiol 677
G. M. Fukayama, C. Barrett, P. D. S. Wood, and L. G. Crowley

Dimorphism in Sex Chromatin Pattern of Sertoli Cells in Adults with Klinefelter's Syndrome: Correlation with Two Types of "Sertoli-cell-only" Tubules 683
A. Frøland and N. E. Skakkebaek

Measurements by Competitive Binding Radioassay of Serum Anti-Microsomal and Anti-Thyroglobulin Antibodies in Graves' Disease and Other Thyroid Disorders 688
T. Mori and J. P. Kriss

Separation of Thyroxine-Binding Proteins in Human Serum at pH 7.4. II. Effect of pH and Temperature on the Binding Capacities of Thyroxine-Binding Globulin (TBG) and Thyroxine-Binding Prealbumin (TBPA) 699
P. J. Davis and R. I. Gregerman

RAPID COMMUNICATIONS

Effect of Levodopa (L-Dopa) on Human Hypophyseal Trophic Hormone Release 709
R. L. Eddy, A. L. Jones, Z. H. Chakmakjian, and M. C. Silverthorne

Primary Aldosteronism: Preoperative Tumor Visualization by Scintillation Scanning 713
J. W. Conn, W. H. Bierwaltes, L. M. Lieberman, A. N. Ansari, E. L. Cohen, J. J. Bookstein, and K. R. Herwig

No. 5, November 1971

Effects of Porcine Calcitonin on Calcium Metabolism in Osteoporosis 719
S. H. Cohn, C. S. Dombrowski, W. Hauser, J. Klopper, and H. L. Atkins

The Significance of Triiodothyronine (T^3) in Maintenance of Euthyroid Status after Treatment of Hyperthyroidism 729
K. Sterling, M. A. Brenner, E. S. Newman, W. D. Odell, and D. Bellabarba

Use of Polyethylene Glycol to Separate Free and Antibody-Bound Peptide Hormones in Radioimmunoassays 732
B. Desbuquois and G. D. Aurbach

Radioimmunoassay of Vasopressin: Application to Unextracted Human Urine 739
S. N. Oyama, A. Kagan, and S. M. Glick

Osteoid Tissue in Normal and Osteoporotic Individuals 745
K. A. Johnson, B. L. Riggs, P. J. Kelly, and J. Jowsey

Effects of Prolonged Administration of Porcine Calcitonin in Postmenopausal Osteoporosis 752
J. Jowsey, B. L. Riggs, R. S. Goldsmith, P. J. Kelly, and C. D. Arnaud

The Apparent Free Testosterone Concentra- 759

tion, An Index of Androgenicity
A. Vermeulen, T. Stoïca, and L. Verdonck
Radioimmunoassay of Serum Thyrotropin: Sensitivity and Specificity 768
Y. C. Patel, H. G. Burger, and B. Hudson
Radioimmunoassay of Plasma Estriol 775
D. Tulchinsky and G. E. Abraham
The Effects of Pregnancy on Circulating Triiodothyronine 783
D. R. Hotelling and L. M. Sherwood
Measurement of Pregnenolone Sulfate after Solvolysis in Human Pregnancy Plasma 787
A. Scommegna and J. Bieniarz
A Comparison of the Pattern of Steroid Glucuronides and Sulfates in Material Plasma, Umbilical Cord Plasma and Amniotic Fluid. II 793
M. Schweitzer and C. J. P. Giroud
Human Growth Hormone in Urine 799
R. M. Bala and J. C. Beck
The Effect of Adrenergic Receptor Blockade on the Exercise-Induced Serum Growth Hormone Rise in Normals and Juvenile Diabetics 807
A. P. Hansen
Preparation and Binding of Antimicrosomal Antibody-free LATS, and the Effect of Iodination on LATS Biological Activity 813
T. Mori and J. P. Kriss
Thyroid Dysfunction in Pseudohypoparathyroidism 822
S. J. Marx, J. M. Hershman, and G. D. Aurbach
Endocrine Function and Glucose Metabolism in Patients with Parkinson's Disease and their Alteration by L-Dopa 829
A. E. Boyd, III, H. E. Lebovitz, and J. M. Feldman
Studies on Tryptophan Metabolism in Male Subjects Treated with Hydrocortisone 838
H. Wolf and R. R. Brown

COMMENTS

Inadequate Adrenal Reserve 844
